ABSTRACT

8

This document presents a report of the activities of the higher education institutions in Utah during fiscal year 1971-72. Contents include an outline of the academic affairs of the institutions, including descriptions of proposed programs approved, changes in academic program, programs disapproved or discontinued, the veterans approval program, and the statewide educational television system. In addition, tables are available presenting data on planning and capital facilities, budgets and finance, degrees conferred, and the employment outlook. (HS)

Preface

This report is submitted in fulfillment of the State Board of Higher Education's statutory obligation to report annually to the Governor and Legislature of the State of Utah.

It does not replace, substitute for, nor duplicate the necessary financial and other reports regularly issued by each member institution of the Utah System of Higher Education. Such decuments, together with catalogs and other information, are available from the offices of the various college and university presidents.

Acknowledgment is made to B. Jackson Wixom, Jr., especially, and to all members of the staff for their assistance to him, in compiling the detailed information contained in this report.

G. Homer Durham Commissioner of Higher Education

Third Annual Report to the Governor and the Legislature Utah State Board of Higher Education 1971-1972

Established by the Higher Education Act of 1969 Enacted by the 38th Legislature, State of Utah, March 12, 1969 Approved by Governor Calvin L. Rampton, March 21, 1969

Published by the
Office of the Commissioner of Higher Education
UTAH STATE BOARD OF HIGHER EDUCATION

Salt Lake City, Utah 84111

December 1972

Foreword

The State Board of Higher Education's third year, fiscal 1971-72, was a year of positive board initiative, despite litigation brought by the State Board of Education contesting the constitutionality of the Higher Education Act of 1969.

Career education, with increased emphasis on vocational-technical education, settled early as a major thrust for the year. Budgets presented to the 1972 Legislature included recommendations for substantial increases in "voc-tech" programming. The legislature underwrote the Board's emphasis, appropriating dollar for dollar to seven of the nine institutions for fiscal 1972–73 as the Board had recommended.

New Voc-Tech Programs There were 19 new vocational-technical programs approved for member institutions during the year. Most significant, however, were the Board's implementation of statewise plans in health occupations, business and teacher education programming. The clustering of programs and development of career ladders in the health occupation areas may well function as a model for career program development throughout the curricula.

Without diminishing the importance of our colleges and universities, the Board recognizes the increasing demand for paraprofessional workers in many fields. It authorized pilot programs for the training of paraprofessional workers in law and social work this last year and is now investigating other areas of future need.

To keep the career education concept in balance, the Board invited nearly 100 prominent Utah citizens to its third annual Higher Education Assembly, to help it decide how closely curricula at the institutions should be tied to the Utah job market.

These delegates agreed that manpower data and career orientation are important aspects of higher education, but they also cautioned that tying higher education solely to Utah job opportunities would be a dangerous path to take.

The State Board of Higher Education views higher education as a total experience, declining to separate vocational-technical, professional, or general education. All are critical necessities in our increasingly complex society.

Under the Board's governance, the statewide Utah System of Higher Education has drawn closer together. Increasingly the nine institutions and their programs are becoming well coordinated. The orderly intertransferability of credit among institutions is now a fact. Significant progress has been made in breaking post-high school Revised Committee

Structure

study into a variety of segments in the interest of students and in the spirit of aiding many to pursue careers in less time and with more options. In that context, the Board is encouraging institutions to grant higher education credit for the off-campus work experience.

The Board entered its third year by streamlining four of its standing committees into two, combining the Curriculum-Roles Committee with the Vocational-Technical Education Committee, and the Capital Facilities with the Planning Committee.

The Board's Curriculum, Roles and Vocational-Technical Training committee is now current with its program approval progress. Program requests from the institutions now can be evaluated and acted upon in one or two months. In addition, the Committee instituted a systemwide study of teacher education, business, engineering and health-allied programs as being the most critical areas of possible unnecessary duplication and overlap. Concrete steps have been taken in each of these areas to assign primary roles, to minimize duplication of function and to insure the most effective and efficient use of the state's resources. In the field of teacher education the Board concluded that neither the forces of supply and demand nor voluntary action would curtail the outpouring of education graduates far beyond the capacity of Utah or the surrounding states to offer employment in the areas of their training. Accordingly, after consultation with deans and other college personnel and considerable study of the problem, a quota system was formulated for each of the four-year colleges, with each college authorized to implement the restricted program as best met the needs of its students.

The combined Planning and Capital Facilities Committee directed its activities primarily toward establishing a realistic planning program for the construction of the new Orem campus for Utah Technical College — Provo, and planning for the declining enrollment in higher education forecast for the next decade.

Two special committees were established in July, 1971, one to study the problems of tenure and faculty workload and the other to study any problems of governance of the System of Higher Education growing out of the first two years' experience under the 1969 Act. The Faculty Workload and Tenure Committee will report its findings early in 1973.

The special Committee on Governance spent the year evaluating the present system. After six public hearings, questionnaires and a "Little Higher Education Assembly," the Committee was able to inform the Board that the concept of the Higher Education Act of

1969 is supported by the overwhelming majority contacted in the governance review. It concluded that any necessary changes in present methods can be accomplished within the limits of the present statute.

Law Suit The suit brought by the State Board of Education, however, has raised questions as to the validity of the 1969 Higher Education Act. As the fiscal year ended, the Utah Third District Court found the Act unconstitutional. This decision was appealed to use Utah Supreme Court, which heard oral argument in early November.

We believe that the brief experience of Utah's System of Higher Education has demonstrated the wisdom of the 1969 legislation. What changes, if any, in the basic legislation may be necessary in order to maintain that concept must, of course, await the decision of the Supreme Court. The Board, its Staff and the nine member institutions of the System stand dedicated to further development of an efficient and effective, unified System of Higher Education for the State of Utah.

Respectfully submitted, PETER W. BILLINGS Chairman, State Board of Higher Education

I. Commissioner's Report

The people of Utah underwrite the most economical and efficient system of higher education in the world, in terms of accessibility and quality service.

Laudable Taxpayer Effort

A laudable effort by the Utah taxpayers provided \$52.4 million in tax support for the state's nine institutions of higher education for the fiscal year ended June 30, 1972. To raise that much in tax revenue, the Utah taxpayer had to pay \$13.38 per capita of each \$1,000 of personal income. The average American pays only \$9.11. When the 1971–72 tax dollar is equated to enrolled students, however, Utah ranks a low 46th among the fifty states in the number of tax dollars invested per student for operating costs.

This has been a continuing story over the last two or three decades. What it means is simple. The Utah universities and colleges have had to tighten their belts and those with the capability, turn elsewhere for additional funding. The net result is economic pressure to produce efficiency.

Although Utah is only 36th in population among the 50 United States, due to its outstanding universities it is 28th in the amount of money it received in federal and private research and training grants. During 1971–72 that amount exceeded the total state appropriation for nine institutions. The two universities alone were able to attract \$53 million in research and training grants.

Of course, the most important fact is how many individuals are benefiting from Utah's higher education expenditure. When both day and evening students are included the 1971–72 fall term head count enrollment exceeded 50,000 students. On a full-time statistical basis the figure becomes 43,251 students.

The number of students achieving distinction is another important consideration. Here Utah again is doing an extraordinary job. On the national average, about 53 percent of the students who begin a four-year bachelor's degree eventually complete it. In 1968, four years ago, 7,892 students entered Utah's public institutions as resident freshmen. If these students were to advance normally, their

² Utah ranked 9th in the survey in which Hawaii was first with \$17.12 and New Hampshire was last with \$4.50. Recalculated with current data from original report of the Office of Research Information, N.A.S.U.L.G.C. "FYI" Circular Number 173, March 13, 1972. Current information sources: U.S. Department of Commerce, "Survey of Current Business," August, 1971, and M. M. Chambers, "Appropriations of State Tax Funds for Operating Expenses of Higher Education, 1971–72," p. 5.

graduation date would have been June 1972. There were 5,134 students graduated in June, many of whom, of course, entered prior to 1968. Utah has extraordinary factors which detract from a one-to-one relationship between those figures — missionaries, family formation, public-to-private transfers and so forth. But the numbers graduating with a bachelor's degree equaled 65 percent of those who began four years earlier. That number would be even more significant if the students entering vocational-technical programming at the two technical schools, Weber State College and all other institutions but the University of Utah were excluded.

Advanced degrees, short-course study options and advanced skill training while on the job are other contributions made by Utah's higher education institutions not considered in the above.

Extension, educational television, and continuing education services extend the influence of Utah's higher education institutions throughout the state. The county agent program sponsored by Utah State University, for example, has been a large reason why Utah's agricultural industry steadily expands to supply more and more of the nation's food markets.

The University of Utah has long been a leader in economic and business research so necessary in the vitalization and expansion of the Utah economy.

Cultural Centers The cultural and entertainment contributions made by the educational institutions are more difficult to measure quantitatively, but their influence is evident. The cultural life of Utah tends to revolve around its colleges and universities. The lectures, exhibitions, concerts, drama events, musical presentations emerging from the canyons, theaters, museums, auditoriums, student union buildings are a vital part of Utah life. Such annual events as the Shakespeare Festival in Cedar City bring campus and community into close collaboration.

Each week thousands of Utahns find their places in the stadiums and arenas of the campuses for athletic contests, so popular in today's society.

The tax dollars invested in higher education provide the framework for the basic talent and facilities that produce many results. The Utah economy without higher education is difficult to imagine.

Increasingly in the future Utah will need strong, statewide leadership, if it is to maintain its present level of quality post-high school instruction.

Impending declines in higher education enrollment, increased demands from more and more agencies on the General Fund, once reserved almost exclusively for higher education, and an unquestioned need for innovation and reform in teaching methods and structures, all demand that Utah have creative leadership in order to cope with future pressures.

Leveling Enrollment

The state is facing a leveling-off in enrollments. Revenue from student fees makes up nearly two-fifths of all revenues required for the System's basic operations—excluding research and training operations. Any substantial reduction in enrollment means reduction in revenue if individual fees remain at their present levels.

So long as enrollments were increasing, the institutions had the increased student fees and collections to meet immediate increases in direct costs. When enrollment levels, however, institutions end up with higher costs in the market place but fewer dollars to pay for goods and services.

The proportionate total of statewide appropriation earmarked for higher education has remained relatively stable with occasional decreases in the last few years. However, more and other needs have arisen, each filing its claim for a portion of the state's General Fund revenues.

Statewide planning enables resources to be managed at both large and small institutions to meet Utah's needs. Statewide planning is a necessary force to accelerate needed change and improvement. Institutional jealousies, institutional reluctance to eliminate anything, and empire building within the institutions demand that the state take a more ecumenical look a the problems.

The statewide system of public higher education enacted in 1969 is good for Utah. It can succeed with proper professional leadership, service from distinguished citizen boards, capable legislators to make informed decisions in the best interest of all, and the support of the people.

G. HOMER DURHAM Utah Commissioner of Higher Education

II. Events of the Year

The filing by the State Board of Education of a-suit against the State Board of Higher Education occupied time and attention throughout the 1971-72 academic year.

The State Attorney General's office filed the suit in the State Board of Education's behalf September 3, 1971. The year ended with Judge Gordon R. Hall, Utah Third District Court, upholding the State Board of Education's contention and declaring the 1969 legislative action to be unconstitutional. His decision was immediately appealed to the Utah Supreme Court.

Despite this challenge to its right to exist, the State Board of Higher Education made 1971–72 one of its most fruitful years in bringing further economy and efficiency into the State's higher education system. The following chronology lists some of the more important events of the year:

July 27, 1971 The Board reorganized reappointing Peter W. Billings as chairman, limiting the maximum service of any chairman to two two-year terms; six standing committees were merged into four; three special committees were named to study recent System concerns in governance, legislation and litigation, and faculty workload and tenure.

The Board adopted a statement of policy involving legislative relations. In essence it says that "presidents, as executive officers, owe a responsibility first to the System and then to a particular institution which is part of the System." The System "can function effectively only if the presidents support the Board's decisions." Further, "The presidents and their authorized representatives also are obligated to maintain effective informational liaison with members of the Utah legislature, which we favor as a matter of policy."

August 30, 1971 The Special Committee on Governance met with institutional council chairmen and Mrs. Helen B. Ure, State Board of Education chairman, to preview issues to be investigated in the governance review and evaluation.

September 3, 1971

The Attorney General's Office filed suit in Third District Court, challenging the constitutionality of the State Board of Higher Education.

September 10, 1971 The Board staged a Little Higher Education Assembly, in conjunction with the Utah Conference on Higher Education, opened to legislators, institutional council members, administrators, students and faculty, affording opportunity to participate with the special committee in its governance review.

The Board adopted a policy permitting institutions within the System to transfer or consolidate existing administrative units within institutions, or to eliminate such units, subject to a suspensive 45-day veto. "No action shall be considered to be final until 45 days after report by the President to the Board of the intended change," the policy states.

The Board established technical advisory ad hoc committees under the chairmanship of Leon R. McCarrey, associate commissioner, to study health care occupations, engineering, teacher training and business programs with recommended steps to be taken in planning future program offerings within those fields.

Member institutions with programs within those concern weas were asked to provide representation on the committees.

September 22, 1971 The Legislative Planning Committee on Higher Education held a formal meeting under the chairmanship of Senator Merriff Jerkins to confer with Board members and the Commissioner. Special Governance Committee plans, the University Hospital deficit and staff replacement appointments in the Office of the Commissioner were discussed.

October 19, 1971 The Board readjusted the distribution of responsibility for capital facilities administration in the System. Presidents and institutional councils were delegated most authority in administering capital facilities construction on the individual campuses.

October 21, 1971

The Commissioner and members of his staff presented to the Legislative Planning Committee on Higher Education plans for statewide educational television developments and 1972–73 budget preparation.

October 22, 1971

The Commissioner and his staff began budget hearings with each state institution in preparing the Commissioner's 1972-73 budget recommendations to the Board.

November 1, 1971 The death of Richard L. Evans, Board member and member of the Council of the Twelve, Church of Jesus Christ of Latter-day Saints, left a large gap in the Board's Executive, Curriculum and Roles, and Faculty Workload and Tenure committes. His trusted counsel and wisdom had, from its very establishment, assisted the Board in making some of its most critical decisions.

November 6, 1971 Gov. Calvin L. Rampton appointed Elder Thomas S. Monson, L.D.S. Council of the Twelve member, to fill the Evans vacancy.

November 8, 1971

The special Committee on Governance began a series of six public hearings throughout the state, to give legislators, institutional council members, faculty, students, administrato and local citizens the opportunity to provide the Board with their opinions on how the present governance system is functioning. Others were held November 10, 17 and 24.

November 15-16, 1971
The Board conducted formal budget hearings. Each of the institutions presented their needs and adjustments in the prospective budget prepared by the Office of the Commissioner.

November 23, 1971 The Board adopted officially for recommendation to the 1972 Legislature a 1972–73 systemwide budget calling for a \$58.6 million legislative apprepriation. Some \$57.2 million eventually was appropriated by the legislature.

The Board adopted a statewide policy for the use and disbursement of reimbursed overhead earned on research contracts. It provides for the use and disbursement of 25 percent of all indirect cost reimbursements from research and contract activities. "The remaining 75 percent shall be budgeted annually as Education and General Fund Revenue," the policy states. In implementing the new rules, the Board reserved the right to alter the percentages and authorized the Associate Commissioner for Business Affairs to perform annual examination of the accounts involved.

Weber State College President, William P. Miller, announced his intention to relinquish the presidency June 30, 1972. He was nearly 65 years of age, and president of Weber for 19 years. The Board indicated its desire that he continue as Professor of Education, until retirement.

The Legislative Planning Committee invited Chairman Peter W. Billings and Vice Chairman Donald B. Holbrook to report on the governance hearings. Rex G. Plowman, Budget and Finance Committee vice chairman, also reported for the Board's budget recommendations and new reimbursed overhead policy. Copies of the policy text were circulated to each of the members.

December 10, 1971 Board counsel presented arguments in Utah's Third District Court, seeking to restrain the State Board of Education from bringing the

ERIC*

constitutionality litigation to trial. The Extraordinary Writ of prohibition which they sought would have prevented action on the suit for two reasons. First, counsel argued that the State Board of Education, was adjudged to be malapportioned and thus could not seek to increase its powers beyond its normal functions. The lawsuit, according to the argument, was such an attempt. Secondly, counsel made the claim that nowhere in the constitution nor in the statutes of the state is the State Board of Education given the power to sue or be sued.

The court declined to grant the writ.

December 21, 1971

The Board outlined the policy it would use to appoint a new president for Weber State College to replace retiring President William P. Miller. The document included definitions of responsibility and methods which would be used in satisfying the statutory obligations involving consultation with the Weber Institutional Council.

January 10-29, 1972 The Commissioner of Higher Education and members of the Board met with the 1972 Legislature's Higher Education Sub-Committee of the Joint Appropriations Committee, to answer questions on the Board's 1972–73 budget recommendations.

The Board had recommended a total budget including a \$58.6 million statewide appropriation. The Legislature eventually approved the recommendation for seven of the nine in titutions, appropriating \$57.2 million. Funds for the two universities were reduced.

In addition the Legislature appropriated \$4.3 million to meet construction and other capital improvements needs at the institutions. The bulk of that amount went to fund a vocational building for the Utah Technical College at Salt Lake.

The Legislature also approved bonds for six projects suspended due to the constitutionality litigation. All bonding projects will require future prior authorization by the Legislature.

January 25, 1972 The Board consolidated all health care training programs into six separate clusters and sixteen sub-clusters to facilitate analysis, administrative consideration and eventual role assignments.

The Board initiated a study of direct costs of nonresident students in each institution with relationship to nonresident fees.

After preliminary investigation the Board requested the State Building Board to examine the Vocational Building at Dixie College to ascertain whether it should be condemned and razed as unsafe.

February 18, 1972 The Board created four coordinating committees in direct patient care, rehabilitative care, administrative services, and diagnostic services with respect to the related health occupations and to develop plans for possible cooperative programs.

The Board created an overall advisory planning committee to review total health care needs statewide and make recommendations to the Board on finance and priorities.

The Board upheld the University of Utah's combination of its Colleges of Mines and Mineral Industries and Engineering into a single administrative unit under its 45-day rule. The Board requested the University to report at periodic intervals the progress in carrying out the plan. The Board wishes to preserve the quality and strength of the school of mines and mineral industries required by law.

The Board authorized the College of Eastern Utah to explore formally the possibility of HUD financing and file application for funding of a student union building. No prior board authorization for any actual construction at any time was implied in the approval to explore.

The Board adopted a policy under wage-price guidelines that the overall increase for wages and salaries of present faculty and staff in any institution not exceed 5 percent, in total, over the amount spent during 1971-72. This did not limit to 5 percent increases for individual faculty and staff, but the total institutional expenditure increase for this purpose is 5 percent.

It was further recommended that employee benefits, other than mandatory increases in Social Security and unemployment insurance payments, not be increased in fiscal year 1972–73.

March 17, 1972 Judge Gordon R. Hall, Utah Third District Court, heard arguments on the case State Board of Education vs. State Board of Higher Education. The University of Utah and Utah State University were allowed to intervene and a schedule for the filing of memoranda in the move for a summary judgment was set.

March 28, 1972 The Board adopted a policy to make auxiliary enterprises on each of the campuses fully self-supporting by June 30, 1975.

The Board adopted policy governing the development of business programs at member institutions within the System. The University of Utah was given the exclusive role for future development of doctoral degrees in business administration. Existing Master of Business

Administration (M.B.A.) programs at the University of Utah and Utah State University were approved, subject to review.

Baccalaureate programs at U. of U., U.S.U. and Weber State College shall continue as they are presently constituted. Accreditation, and the roles in associate degree programs also were included in the action.

April 23-25, 1972 The Board held its third annual Higher Education Assembly in Park City. Nealy 100 prominent Utah civic leaders wrestled with the question, "to what extent should present and projected job availability be used in planning public higher education?" An overriding opinion prevailed that higher education curricula should not be tied solely to Utah employment opportunities. Manpower data and career orientation are important considerations, but they should not overshadow the entire spectrum of experience a higher education should provide.

Governor Calvin L. Rampton, who also addressed the delegates, followed the same kind of reasoning when he told the delegates, "Somehow we need to break down the traditional barrier between things academic and things vocational. We must develop a single, unified educational system which will serve the Utah economy — and the delicate fabric of our society."

April 25, 1972 The Board approved work programs submitted by seven of the nine system institutions.

On the basis of the recommendations of the ad hoc advisory committee on teacher education the Board adopted a comprehensive program designed to bring the number of teacher education graduates more in line with state and national needs. Specific role assignments at both graduate and undergraduate levels and a flexible quota system on the number of students prepared to teach by June 1973 were implemented.

The Board approved the transmittal of general guidelines for the preparation of a code of professional responsibility at each institution. The institutional codes are to be submitted to the Office of the Commissioner for transmittal to and review by the Board.

The Board heard President Alfred C. Emery report the University of Utah plans, under the 45-day rule, to merge the Departments of Speech and Journalism into a new Department of Communications.

The Board responded to a letter of Mr. R. LaMar Thayne, state director of Computer Services, with the recommendation that Utah State University accept the bid for the appropriate computer it

selects; meanwhile, the Board is investigating a centralized system. The action also provided that if the Burroughs lease were consumated, it could be cancelled within a year, without penalty, should interim studies indicate that to be desirable.

The Board's Special Committee on Governance met in Ogden to review with the institutional presidents the first draft of the Committee's report on governance. The deadline for additional input was set for June 15, and the Office of the Commissioner was asked to collate and assemble additional comments.

May 23.
1972
The Board designated William P. Miller President Emeritus of Weber State College and that he continue service at Weber State College thereafter as Professor of Education, beginning with the academic year 1972–73.

The Board appointed Dr. Joseph L. Bishop, Jr. to succeed Dr. William P. Miller as President of Weber State College, effective July 1, 1972.

The Board approved the participation of students from Utah Technical College at Provo in the Brigham Young University ROTC program, effective September 1972.

The Board determined the bid of Merrill Lynch, Pierce, Fenner and Smith and Associates of San Francisco, California, as the low and best bid received for the Utah Technical College at Salt Lake, College Center (at an interest rate of 5.77 percent), and the bonds were accordingly awarded to said bidder.

The Board requested each committee chairman and each institutional president to present any recommendations for legislation to be proposed to the 1973 Legislature to the Legislation and Litigation Committee no later than September 1 for study and report to the Board for appropriate action.

The Board authorized the Commissioner of Higher Education to sign, on behalf of the Board of Higher Education, the annual contract for fiscal year 1972–73 with the Veterans Administration, designating the Board as the state approving agency for the coordination of veterans' programs.

The Board authorized the College of Eastern Utah to transfer \$22,000 from either its 1972-73 Maintenance and Operations account or part of the Alteration, Repairs and Improvement account, or a combination of the two, in order to complete the Maintenance Building as scheduled; and to request the Budget and Finance Com-

mittee to request a supplemental appropriation from the 1973 Legislature to restore the \$22,000.

The Board authorized Utah State University to seek approval from the State Board of Examiners to sell, pursuant to State law, 70 acres of land located in Pleasant View, Utah.

The Board directed the Executive Committee to meet with University of Utah President Alfred C. Emery, on or before July 18, 1972, to discuss what action the Board should take with respect to his original intention to return to teaching beginning July 1, 1973.

Chairman Billings expressed the utmost confidence of the State Board of Higher Education in the performance of President Alfred C. Emery at the University of Utah.

- June 30, 1972

 Judge Gordon R. Hall handed down a memorandum decision in Utah's Third District Court, upholding the contention of the State Board of Education and finding the Higher Education Act of 1969 null and void. He also granted a stay of execution while the decision is on appeal to the Utah Supreme Court.
- July 17, Utah Third District Court issued a formal judgment on Judge Hall's decision.
- July 18, 1972 The Board approved two resolutions pertaining to the issuance of \$1,145,000 Utah Technical College at Salt Lake Student Union Building Bonds of 1972.

The Board authorized Utah State University to increase its late registration fee from \$5 to \$10 for students registering after the first three days of registration and from \$10 to \$20 after the second week of registration.

The Board approved the awarding of Associate of Applied Science degree in appliance repair and in carpentry and construction technology at Snow College.

The Board adopted a list of social work occupations to be included in planning by the Graduate School of Social Work and to attach it to the minutes to clarify the resolution adopted at the June 27, 1972 meeting.

The Board approved the following resolution rather than to issue a blanket directive concerning shortening the time to the baccalaureate degree:

RESOLVED, that all state institutions of higher education experiment with and encourage innovative off-campus work study, on-the-job training, individual guided study programs, all offer-

ing appropriate academic credit acceptable toward bachelor degree requirements. Such programs can contribute both toward better career training and more efficient use of campus facilities.

The Board accepted the schedule of capital facilities priorities for transmission to the Utah State Building Board as the recommendation of the State Board of Higher Education for joint consideration and consultation in the preparation by the Building Board of its recommendations to the Governor and the 1973 Legislature.

The Board revised the action of June 27, 1972, to authorize Utah Technical College at Provo to work with the State Building Board in leasing adequate and suitable space without specifying a particular building.

III. Academic Affairs

The following report includes Board actions and studies now in progress in the Office of the Commissioner. Reports from Statewide Educational Television, Vocational-Technical Education, and Veterans Approval Programs also are included.

Staff services to the Board's Curriculum, Roles, and Vocational-Technical Training Committee are assigned in the Office of the Commissioner to Dr. Leon R. McCarrey, associate commissioner and director of academic affairs.

Role and Curricular Studies July 1, 1971 through June 30, 1972

Studies in Progress

- 1. In-depth analysis of programming in the area of Engineering with emphasis on the development of role assignments.
- Master of Science degree in Materials Science and Engineering
 — University of Utah.'
- 3. Industrial Technology Department Utah State University.'
- 4. Associate and Bachelor's degree programs in Civil Engineering Technology Weber State College.
- 5. Associate degree in Electronics Technology Dixie College.
- 6. Teaching major in Technical Electronics Weber State College.
- 7. Associate degree in Environmental Control Technology Utah Technical College/Provo.'
- 8. Associate degree in Environmental Technology—Dixie College.
- 9. Ph.D. in Applied Mathematics Utah State University.
- 10. Bachelor's degree in Agri-Business Utah State University.
- 11. School of Allied Health Sciences Weber State College.
- 12. Dental Assistant program Weber State College.
- 13. Bachelor's degree major in Child Development—Southern Utah State College.
- 14. Nursery Aide program Dixie College.
- 15. Associate of Applied Science degree in Advertising and Graphic Technology Utah Technical College/Provo.
- 16. Certificate and Associate of Applied Science degrees in Home Economics Utah Technical College/Provo.
- 17. Certificate program in Flight Training Utah Technical College/Provo.
- 18. Review of statewide policy regarding Advanced Placement, Col-

¹ Included in Engineering study listed above; not to be consumated until in-depth study is complete.

- lege Level Examination Program, and Foreign Language examination Program, and Foreign Language examinations.
- 19. Master plan of educational programs Utah Technical College/Provo.
- 20. Development of occupational clusters for vocational-technical programs.
- 21. Development of an articulation agreement between proprietary schools and member institutions of the Utah System of Higher Education.
- 22. Relationship between two two-year colleges (CEU and Snow) and the area vocational centers.
- 23. Relationship of the Institute of Technological Training at the University of Utah to the Utah Technical College/Salt Lake.
- 24. Off-campus Master of Business Administration programs—University of Utah and Utah State University.
- 25. Transfer of credits and the coordination of extension and non-credit programs in business.
- 26. Development in conjunction with the Governor's office, of an inservice minority awareness program for state employees.

Role Assignments

- 1. Associate of Applied Science degree in Coal Mining Technology
 College of Eastern Utah.
- 2. Post-doctoral programs in health related fields University of Utah (Exclusive).
- 3. Master's and doctoral programs in medicine University of Utah (Exclusive).
- 4. Physician extension and substitute programs University of Utah (Exclusive).
- 5. Baccalaureate and graduate degree nursing and pharmacy— University of Utah (Exclusive).
- 6. Technical Nursing Services Weber State College.
- 7. Nursing Support Services Utah Technical College/Salt Lake.
- 8. Respiratory Care Services Weber State College.
- 9. Dental Auxiliary Services Weber State College.
- 10. Social Services (Health) Utah Technical College/Salt Lake.
- 11. Therapeutic Services (Health) University of Utah.
- 12. Community Services (Health) University of Utah.
- 13. Dietetic Services Utah State University.
- 14. Baccalaureate Degree Public Health Utah State University.

- 15. Patient Data Services Weber State College.
- 16. Management Services (Health) Weber State College.
- 17. Diagnostic Technician (Health) Weber State College.
- 18. Doctoral degree programs in Business Administration University of Utah (Exclusive).
- 19. Doctoral degree program in Business Education Utah State University (Exclusive).
- 20. Southern Utah State College assigned to offer baccalaureate degrees in selected areas of business only, i.e., business education, business administration, and accounting. Additional areas of specialization are restricted as follows: economics, 30-36 quarter hours; marketing, 20-30 quarter hours; finance, 20-30 quarter hours; and management, 20-30 quarter hours.
- 21. University of Utah restricted from offering Associate of Science, Associate of Arts, or Associate of Applied Science degrees in business fields.
- 22. Doctoral programs in Educational Administration University of Utah (Exclusive).
- 23. Doctoral programs in Educational Psychology University of Utah (Exclusive).
- 24. Master's degree programs in Educational Psychology University of Utah (Exclusive).
- 25. Doctoral program in Early Childhood Education Utah State University (Exclusive).
- 26. Doctoral program in Elementary Education Utah State University (Exclusive).
- Doctoral program in Secondary Education Utah State University (Exclusive).
- Doctoral programs in Curriculum Development and Supervision
 — Utah State University (Exclusive).
- 29. Doctoral programs in Health, Physical Education and Recreation University of Utah (Exclusive).
- 30. Master's degree program in Science Education University of Utah (Exclusive).
- 31. Master's degree program in Home Economics Education Utah State University (Exclusive).*
- 32. Master's and Doctoral programs in Vocational, Technical, and Industrial Education Utah State University (Exclusive).

^{*} A Masters degree program in Home Economics Education was discontinued at an earlier date at USU. This role designation indicates that if such a program is warranted at a future time within the State System, it should be assigned to USI.

- 33. Master's degree program in Agricultural Education Utah State University (Exclusive).
- 34. Baccalaureate degrees in Agricultural Education Utah State University (Exclusive).
- 35. Baccalaureate degrees in Distributive Education Utah State University (Exclusive).
- 36. Baccalaureate degrees in Home Economics Education Utah State University (Exclusive).
- 37. Fine Arts Dance Program University of Utah (Exclusive).
- 38. Driver and Safety Education Utah State University (Exclusive).
- 39. Secondary Education Majors in Latin University of Utah (Exclusive).
- 40. Secondary Education Majors in Russian University of Utah (Exclusive).

Proposed Programs Approved

- 1. Master of Agricultural Industires Utah State University.
- 2. Associate of Applied Science degree in Manufacturing Technology Weber State College.
- 3. Associate of Applied Science degree in Engineering Graphics Weber State College.
- 4. MEDEX Training Program University of Utah.
- 5. Baccalaureate minor in Earth Science Southern Utah State College.
- 6. Associate of Applied Science degree in Radiologic Technology
 Weber State College.
- 7. Associate of Applied Science degree in Auto-Parts Merchandising College of Eastern Utah.
- 8. Associate of Applied Science degree in Agribusiness Technology Snow College.
- 9. Young Farmer's Educational Program Snow College.
- Instructional Technology (consolidation of two existing programs in the Library and School of Education) Weber State College.
- 11. Baccalaureate degree in University Studies University of Utah.
- 12. Associate of Applied Science degree in Coal Mining Technology
 College of Eastern Utah.
- 13. Master of Arts degree in Russian University of Utah.

- 14. Certificate in Recreation Vehicle Repair Utah Technical Collegé/Salt Lake.
- Baccalaureate major in Communications (consolidation of majors in Speech and Communications) — Weber State College.
- 16. Licensed Practical Nursing program -- College of Eastern Utah.
- 17. Associate of Applied Science degree in Fashion Merchandising

 Weber State College.
- 18. Associate of Applied Science degree in Child Development Weber State College.
- 19. Associate of Applied Science degree in Interior Design - Weber State College.
- 20. Associate of Applied Science degree in Business Management with options in Business Management, Accounting, and Office Administration Utah Technical College/Salt Lake.
- 21. Cooperative ROTC Program Utah Technical College/Provo and Brigham Young University.
- 22. Cooperative Associate of Applied Science degree program in Radiologic Technology Utah Technical College/Provo and Utah Valley Hospital.
- 23. Associate of Applied Science program in Food Service Technology Weber State College.
- 24. Ph.D. program in Linguistics University of Utah.
- 25. Bachelor of Science degree in Biology Utah State University.
- 26. One year programs in Auto Body Repair and Auto Painting combined into a two year program in Auto Body Repair and Paint Utah Technical College/Salt Lake.

Changes Changes in Academic Program*

- 1. The Department of Food and Nutrition in the College of Family Life and the Department of Food Science and Technology in the College of Agriculture Combined into one department Utah State University (November 1, 1971).
- 2. Utah Technical College/Provo authorized to award the Associate of Science degree (A.S.).
- 3. The area center designation for Utah State University merged with the designated Area Vocational Center at Smithfield.
- 4. Institutions within the System authorized to transfer or consolidate existing administrative units within institutions, or to elimi-

^{*} Not intended to be exclusive of programs listed under sections "Proposed Programs Approved" and "Proposed Programs Disapproved or Discontinued."

nate such units, without formal action by the Board. No action is considered final until 45 days after report by the President to the Board of the intended change.

- Administrative responsibility for Bureau of Indian Services, University of Utah, transferred to College of Social and Behavioral Sciences and Renamed the Center for American Indian Programs.
- 6. New procedures facilitating the gubernatorial approval of Institutional Training Grant Proposals were adopted.
- 7. Library Science program merged with the Educational Media program in the Department of Educational Administration to form a new division, Division of Instructional Systems and Learning Resources, University of Utah.
- 8. College of Engineering and College of Mines and Mineral Industries combined, University of Utah, under 45-day rule (see 4 above).
- 9. Coordinating Committees appointed in four allied health areas: direct patient care, rehabilitative care, administrative services, and diagostic services; consisting of representatives from institutions involved in programs falling within these respective areas.
- 10. Advisory planning committee for health care occupations appointed to review total statewide health care needs and to make recommendations regarding the needs, finances, and priorities in health care training programs.
- 11. Credit hours in the fields of accounting, shorthand, and typewriting authorized as follows:
 - A. Accounting
 - 1. No credit to be allowed in any institution for accounting labs.
 - 2. All schools limited to a maximum of 12 quarter hours of credit for the first year's work in accounting.
 - 3. All schools limited to a maximum of 12 quarter hours of credit for the second year of accounting.¹
 - 4. All two-year institutions limited to 32 credit hours of accounting, including 8 optional intermediate hours in addition to the above 24 hours, plus a nontransferable secretarial course, if such a course is desired.

¹ Intermediate accounting classes taken at the two-year colleges are not transferable as upper division credit to the four-year colleges and universities.

B. Shorthand

Those institutions which presently have programs limited to a maximum of 20 credit hours.

C. Typewriting _____

Those schools which presently have programs limited to a maximum of 15 credit hours.

12. Quotas in teacher education initiated (not to exceed 1,350 certificates per year from the four state-supported teacher education institutions by June of the 1973-74 academic year). The total number of graduates would not exceed the following institutional quotas:

13. The University and College Library Council (UCIC) was organized consisting of library directors and other professional librarians from the following libraries:

Brigham Young University Library
Dixie College Library
Southern Utah State College Library
University of Utah Libraries:
Marriott Library
Eccles Medical Sciences Library
Utah State University Library
Weber State College Library

The Library Council is a cooperative group designed to augment institutional iibrary services to students and faculty members, and to facilitate the acquisition of research collections through shared financial support. Projects under consideration include:

Reciprocal horrowing privileges among cooperating libraries

Microfilmed card catalogs

Assistance in answering specialized queries

Better utilization of available acquisition dollars through avoidance of expensive duplicate-set purchases

1. Associate of Science, Associate of Arts, and Certificate of Completion in Manufacturing Technology — Weber State College (July, 1971).

² Subject to periodic review.

- 2. Associate of Science, Associate of Arts, and Certificate of Completion in Engineering Graphics Weber State College (July, 1971).
- 3. Ph.D. in Food and Nutrition Utah State University (November 1, 1971).
- 4. Master of Science in Home Economics Education Utah State University (November 1, 1971).
- Master of Science in Household Economics and Management Utah State University (November 1, 1971).
- 6. Master of Arts degree in Journalism Utah State University (September 1, 1971).
- 7. Master of Science in Environmental Planning (M.S.E.P.) Utah State University (September 1, 1971).
- 8. Master of Arts, Master of Science, and Master of Theatre Arts in Speech and Theatre Arts Utah State University (November 1, 1971).
- 9. Evening program in Barbering Utah Technical College/Salt Lake (phase out during 1971-72).
- Associate of Science degree in Radiologic Technology Weber State College (September of 1972).
- 11. Doctoral programs in Educational Administration Utah State University (June, 1972).
- 12. Doctoral programs in Educational Psychology Utah State University (June, 1972).
- 13. Master's degree programs in Educational Psychology Utah State University (June, 1972).
- 14. Doctoral program in Elementary Education University of Utah.
- 15. Doctoral program in Secondary Education University of Utah.
- Doctoral program in Curriculum Development and Supervision
 — University of Utah.
- 17. Doctoral programs in Health, Physical Education and Recreation Utah State University.
- Master's degree programs in Home Economics Education University of Utah.
- 19. Baccalaureate degrees in Home Economics Education University of Utah.

^{*} Date in parentheses indicates time of program disapproval or discontinuation.

- 20. Teacher certification programs in Journalism University of Utah, Utah State University, Weber State College, Southern Utah State College.
- 21. Associate of Science and Associate of Arts programs in Distributive Education Weber State College (April 25, 1972).
- 22. Master of Arts in Music University of Utah (May 23, 1972).
- 23. Master of Science in Psychiatry University of Utalı (May 23, 1972).
- 24. Certificate in Recreation Vehicle Repair Utah Technical College/Provo (January 25, 1972).
- 25. Baccalaureate major in Business Education/Distributive Education Southern Utah State College (May 23, 1972).
- 26. Baccalaureate major in Economics Southern Utah State College (May 23, 1972).
- 27. Baccalaureate minor in Computer Science Southern Utah State College (May 23, 1972).
- 28. Associate of Applied Science degree program in Food Service Technology Utah Technical College/Provo (June 27, 1972).
- 29. Doctor of Philosophy degree in Ecology, Utah State University (June, 1972).
- 30. Master of Music (M.M.) degree in Music, Utah State University (June, 1972).
- 31. Ed.D. in Industrial and Technical Education, Utah State University (June, 1972).
- 32. M.S. and M.E. degrees in Manufacturing Engineering, Utah State University (June, 1972).
- 33. M.S., M.E., and Ph.D. in Agricultural and Irrigation Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering, Utah State University (June, 1972).—To be replaced by M.S., M.E., and Ph.D. programs in Engineering with respective areas of emphasis as listed above.
- 34. M.S. in Accounting, Utah State University (June, 1972).
- 35. One year certificate in Auto Body Repair and Painting (Extend Day), Utah Technical College/Salt Lake (June, 1972).
- 36. One year certificate in Auto Body Repair, Utah Technical College/Salt Lake (June, 1972).
- 37. One year certificate in Auto Painting, Utah Technical College/Salt Lake (June, 1972).

- 38. Educational Specialist degrees in Educational Administration Utah State University.**
- 39. Educational Specialist and doctoral degrees in Educational Media Utah State University and University of Utah.*

Veterans Approval Program, 1971-72

To enable persons who have served with the United States Armed Forces to further their education, Congress has authorized benefits to eligible veterans attending an approved school.

The Office of the Commissioner serves as the State Approving Agency under contract with the Veterans Administration. Dr. Sterling R. Provost administers the program as the Coordinator of Veterant and Vocational-Technical Affairs.

During 1971–72, 90 Utah institutions currently were thus operating under Title 38, Chapters 34–36, United States Code. These include members of the Utah System of Higher Education, private college and university campuses, private two-year business colleges, secondary schools, medical-related training institutions, cosmetology and barber schools, and trade-technical schools. Offered are a variety of both academic and vocational-technical program which provide a broad spectrum of education and training:

STATE UNIVERSITIES AND COLLEGES:

College of Eastern Utah, Price
Dixie Junior College, St. George
Snow Junior College, Ephraim
Southern Utah State College, Cedar City
University of Utah, Salt Lake City
Utah State University, Logan
Weber State College, Ogden
Utah Technical Colleges, Salt Lake and Provo

PRIVATE UNIVERSITIES AND COLLEGES:

Brigham Young University, Provo Westminster College, Salt Lake

BUSINESS SCHOOLS:

L.D.S. Business College, Salt Lake Stevens Henager College, Salt Lake and Ogden

HOSPITAL, MEDICAL AND NURSING TRAINING:

Holy Cross Hospital, Salt Lake L.D.S. Hospital, Salt Lake McKay-Dee Hospital Center, Ogden Primary Children's Hospital, Salt Lake Shriner's Hospital, Salt Lake

^{*} These programs had not been developed at the time other doctoral programs in education were considered. The Board recommended that such programs not be developed.

St. Benedict's Hospital, Ogden St. Mark's Hospital, Salt Lake University Medical Center (University of Utah), Salt Lake Utalı Medex Project, Salt Lake Utah State Hospital, Provo Utah Valley L.D.S. Hospital, Provo Veterans Administration Hospital, Salt Lake AVIATION SCHOOLS: Airstream Western, Logan Basin Flying Service, Vernal Central Utah Aviation Flying Service, Provo Intermountain Flight Center, Ogden Interwest Aviation, Inc. Air Utah, Salt Lake Ogden Provo Salt Lake City Thompson Flying Service, Salt Lake Transwest Flight School, Salt Lake Valley Airmotive, Logan TRADE AND TECHNICAL SCHOOLS: Job Corps Center, Clearfield Ron Bailie School of Broadcasting, Salt Lake Electronic Computer Programming Institute of Utah, Salt Lake Radio Institute, Inc., Salt Lake Sales Training, Inc., Salt Lake Technical Engineering Institute, Salt Lake Western American Trade College, Ogden Western Region Indian Alcoholism Training Center (University of Utah), Salt Lake COSMETOLOGY, BARBER, AND HAIRDRESSING SCHOOLS: Cameo College of Beauty, Salt Lake Continental College of Beauty, Salt Lake Darrell's College of Beauty, Salt Lake Toocle Orem Kearns Excelcis Beauty College, Salt Lake Hollywood Cc 1050 of Beauty, Layton, Murray, Ogden, Provo, Salt Lake International Institute of Hair Design, Salt Lake and Bountiful Mary's College of Beauty, Provo Paintere's College of Beauty, Roy Robert Steur College of Beauty, Salt Lake and Ogden Salt Lake Barber College, Salt Lake City Utah Barber College, Salt Lake ADULT PUBLIC SCHOOL PROGRAMS: Alpine School District, American Fork Box Elder School District, Brigham City Bridgerland Area Vocational Center, Smithfield Carbon County School District, Price Davis County School District, Farmington Duchesne School District, Duchesne Grand County School Distric:, Moab

Granite School District, Salt Lake

Iron County School District, Cedar City
Jordan School District, Sandy
Moab Area Vocational Center, Moab
Nebo County School District, Spanish Fork
Provo School District, Provo
Salt Lake City School District, Salt Lake
San Juan School District, Monticello
Sevier Valley School District, Richfield
Sevier Valley Technical Institute, Richfield
Uintah Basin Area Vocational Center, Rooseveit
Weber County School District, Ogden

Cooperation with WICHE, 1971-72

The Student Exchange Program administered through the Western Interstate Commission for Higher Education (WICHE) assists Utah students in obtaining professional training in dentistry and veterinary medicine. Utah receives students in medicine under the interstate compact. Students who are certified pay the same fees as if they were residents of the receiving state. Past appropriations have provided for five entering freshmen each year in veterinary medicine and dentistry. Continuing students receive the same assistance provided they maintain a satisfactory record.

In 1971-72 there were 16 Utah students in the veterinary medicine program and 10 in the dentistry program. A total of \$52,800 was paid in compact fees for these students and \$15,000 was paid as Utah's annual membership fee. The University of Utah received 35 medical students in 1971-72 with compact fees of \$104,000.

Statewide Educational Television

Development of a "single, coordinated statewide system of educational television" include the following:

- 1. Acquisition and installation, with the help of a federal educational television facilities grant, of color cameras in the KUED studios enabling the station to originate programming in color
- 2. Substantial improvements of picture quality and signal reliability in additional Utah communities as part of the three-year program of upgrading the statewide translator system which relays the KUED signal throughout the state.
- 3. Construction underway at year's end for move of the Ogden terminal of the leased microwave system from Weber County High School to Weber State College. This will enable Weber College to participate fully in the on-going exchange of instructional television offerings among the state inter-connected institutions the Univer-

sity of Utah, Utah State University and with Brigham Young University through its privately owned system.

- 4. Planning and implementation of several innovative new uses of the statewide television system:
- Normalization of USU Extension Division's "electronic" state-wide staff and training sessions. Presentations are transmitted from USU TV studios via microwave to KUED which relays via TV the material to regional and county gatherings of extension workers throughout the state. Live voice interaction follows among workers using telephone circuits, two-way loudspeaker and microphone equipment.
- USU use of same arrangement for an emergency program to assist ranchers in dealing with the helogeton poisonous weed crisis in which thousands of Utah sheep were killed.
- Use of system by Engineering Council of Utah to relay major portion of their annual convention to members gathered on four campuses, thus overcoming the space problems and greatly reducing travel, per diem and other costs formerly incurred in single location conventions.
- Delivery of the National Public Radio network service to USU's FM radio station using audio channel of microwave system thus avoiding cost of leasing separate hard-line circuit to Logan. Weber State College's student training station is to be connected to NPR service.
- Planning in progress to possibly interconnect major hospitals for electronic diagnosis experiments, shared use of training and professional development programs for hospital personnel; possible shared use of computers, for a multi-campus physics symposium in which renowned scientists lecturing at one campus could be heard and seen by students and faculties on other inter-connected campuses.
- 5. Procurement of modest federal allocation to complete a badly needed traffic control and switching center at the University of Utah. It is needed to simplify and make reliable the diverse and complex programs now being carried on the microwive and statewide TV system.
- 6. Work underway on a series of short films portraying study and career options open at the two-year colleges; to be shown on KUED, in counseling-guidance programs of high schools, and other agencies involved in Manpower programs.

I. Planning and Capital Facilities

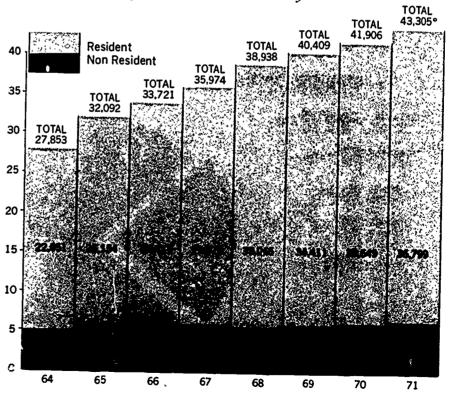

Key Issue The future number, size, type and location of post-secondary institutions became the key planning issue for the State Board of Higher Education in 1971–72, as the Office of the Commissioner of Higher Education with refined enrollment projection methods began to view Utah's higher education future a bit more clearly.

The leveling enrollment trend, forecast for the mid 1970s, came closer to the predicted standstill, as Utah's public institutions experienced the smallest yearly enrollment increase in more than a decade.

The nine-institution Utah System of Higher Education enrolled 43,305 full-time, day head count students Autumn Quarter 1971. This was 1,399 more students than the previous year. (See Figure 1)

Figure 1. Autumn Quarter Enrollment in the System

Utah System of Higher Education Autumn Quarter Enrollment Day Head Count Years 1964-65 through 1971-72

SOURCE: USHE Annual Enrollment Analysis, 1964-65 through 1971-72 *estimated from extended day reports for growth comparison only.

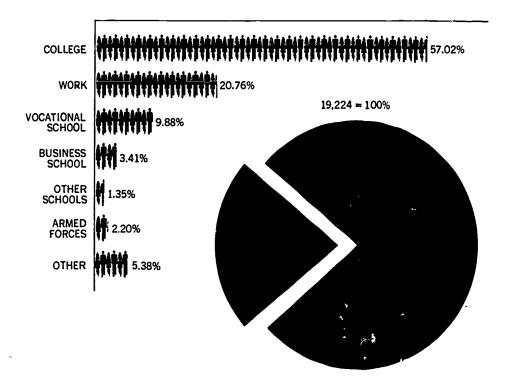

High School Intentions

A survey among high school graduates in the spring of 1972 reinforced previous projections that 1972–73 enrollments would remain nearly static. Of the 19,244 Utah high school graduates, only 66 more than the year before, 18,776 (72 percent) said they would seek some form of post-high school training. Only 57 percent said they would be going on to college. (See Figure 2)

In previous years as many as 84 percent of the graduates had indicated post-secondary interest with 70 percent saying they would attend college.

Figure 2. Intentions of Utah's School Graduates, Spring 1972
(Total of 19,224 High School Graduates = 100%)

UTAH STATE BOARD OF EDUCATION
Division of Auxiliary Services
1400 University Club Building / Salt Lake City, Utah
September, 1972

Preliminary enrollment reports for Autumn 1972 show that System enrollment decreased approximately 2 percent. Every institution with the exception of the two Utah Technical Colleges reported slight decreases from the previous year.

The prospect of static or even decreasing enrollments made finances and vitality of the smaller institutions the Board's primary planning concern.

Utilization of present campus facilities has to be considered in view of the projected enrollment picture. In setting its capital facilities construction priorities this year, the Board gave first priority consideration to maintenance and repair of existing facilities.

At the same time, the Board began a review of each institution's facilities to see how each would be able to withstand adverse enrollment situations which might arise.

Some buildings appear to be somewhat underutilized. This may be in part due to their age, condition, or to the fact that there are new and better facilities. Increasingly, the dependence on and significance of the State Building Board's legally required space utilization studies became apparent.

Renovation may help some institutions accommodate their needs, but some new buildings may need to be considered as higher education changes.

The following tables contain detailed planning and capital facilities data collected by the Office of the Commissioner.

1,175	39.3	2,238	2,800	70
30,608	· ·	39,683	59,900	66

A word of caution: Even though, for any given institution, the optimum F.T.E. student enrollment may exceed considerably the actual F.T.E. student enrollment, there may be specific problems relating to high utilization in particular areas, urgent need for specialized facilities or for the replacement of obsolete and functionally inadequate facilities which do not lend themselves to efficient utilization.

II. Budgets and Finance

Appropriations

The State of Utah appropriated approximately one dollar for higher education for each five dollars of total legislative appropriation, during 1971–72. (See Figure 1)

The \$52.4 million made available to the Utah System of Higher Education through this significant effort, however, still left the institutions at a financial position about equal to the previous year.

Figure 1. Legislative Appropriations 1971-72

Utah System of Higher Education Appropriations General and Uniform School Funds, Percent and Dollar Distribution, State of Utah, 1971-72

*Includes \$28.3 million transfer from the General Fund Source' Utah Foundation, Report No. 313, November 1972

Total \$251.2

The percentage of Utah's student-age population which seeks additional education beyond high school ranks among the highest in the nation. Yet Utah stood 46th of 50 in the number of dollars provided in 1970-71 (latest figures available) for each higher education student. (See Figure 2)

"SOURCE: Circular Number 173, "FYI". National Association of State Universities and Land Grant
Colleges, March 13, 1972.

· Despite the fact that appropriations have risen steadily, (See Figure 3) in the last five years, Utah has slipped from 45th to 46th.

High Tuitions

Student tuitions were high for Utahns in 1971-72. The University of Utah student, for example, paid more than most of his contemporaries in surrounding states. (See Figure 4). This also was true at the community and technical colleges. The Utah student paid more than \$300 per year, while students in surrounding states paid only token tuitions — or in some cases no tuitions at all.

Figure 3. Increasing System Appropriations

General Fund Appropriations in Millions of Dollars-1963-64 through 1971-72

SOURCE: Legislative Budget Recommendations Utah System of Higher Education, 1972-73 and 1971-72, and Financing Higher Education in Utah, Coordinating Council of Higher Education, years 1963 64 through 1969-70

^{*}Includes 4% reduction by State action

^{**}Includes 3% reduction by State action

^{***} Original appropriation before 2% reduction by State action #Includes deficit appropriations (1) to the University Hospital \$1.9 million and (2) Dixie College \$55,000.

Tight Finances

Difficult management decisions characterize this tight financial climate. In order to protect instructional programs, institutions have eliminated some services. Faculty salaries have not grown as quickly as in other states. In 1971–72 Utah institutions were able to raise average salaries about 3 percent, while average salaries in other parts of the United States gained 7 to 9 percent.

The following tables contain some basic budget data. Detailed information is published separately.

IV. Degrees Conferred

Small Graduate Increase The number of graduates from Utah's public and private higher education institutions continued to increase in 1971-72. The percentage increase over 1970-71, however, showed the smallest gain since higher education enrollment growth began its sharp expansion following World War II.

State system institutions granted 9,628 degrees and certificates to students completing programs of at least one year's duration. The State's private institutions, Brigham Young University, Westminster College, Stevens-Henager College and LDS Business College awarded an additional 5,923 such degrees and certificates bringing the state total to 15,551. (See Figure 1.)

Figure 1. Utah Degrees and Certificates
Conferred— 1964-65 to 1971-72

15,551*

Degrees, Certificates and Other Formal Recognition Conferred, Public and Private Institutions, 1963-64 Through 1971-72

Source-HEGIS Report, 1964-65 to 1971-72

*Includes 320 degrees and certificates from LDS Business College and Stevens-Herager College whose awards were not previously reported

In addition, information collected for this report showed these same, public and private institutions granted an additional 3,752 awards, recognizing programs of less than one year's duration. These short-course awards provide proficiency certification in a great number of employable skills.

Career Education

Career education has dominated our state universities since World War II. Increased emphasis on vocational-technical subjects, likely was responsible for some of the increases in the number of less than four-year degrees awarded, 27 percent more than last year.

Growth at the bachelor's degree level was virtually stunted. There were only 14 more bachelor's degrees awarded this year at public institutions. At the private institutions, the rate of increase was about half the 1970-71 rate.

The increase in master's and doctorate degrees remained high, probably due to the "pipeline" effect.

The greatest number of degrees at, or above, the bachelor's degree level were again conferred in Business, Education, Engineering and Social Sciences. However, particularly at the public institutions, these numbers remained practically even. Social Sciences and Engineering accounted for 94, and 12 fewer degrees this year respectively. Education increased only by 38 degrees. Business and management degrees maintained a healthy 112 increase, matching continuing high demand.

Detailed degree information follows.

¹Agriculture & Natural Resources include Forestry.

²Communications include Journalism.

³Engineering includes Trade & Industrial Training.

⁴Fine & Applied Arts no longer include Speech.

 $[\]mathbf{5}_{\mathbf{Law}}$ indicates bachelor degrees in Prelaw only.

⁶Letters include Speech, English, and Philosophy.

⁷Public Affairs & Services include Social Work and Public Administration.

⁸Social Sciences include Geography.

Addendum prepared by the Office of the Commissioner

IV. Employment Outlook

Manpower data and career application considerations influence the Board in both its budgeting and program review processes.

Voc-Tech Emphasized

The budget recommendations provided the legislature during the year, for example, reflected an increased demand for vocational and technical training. On Board recommendation, the Legislature appropriated increases of 43 and 34 percent respectively for the Utah Technical Colleges at Salt Lake and Provo. Weber State College and others also received increases for vocational and technical programs.

National and local employment needs were heavily considered in the Board's review of health occupations, business and teacher education programming. The Office of the Commissioner worked closely with the Utah Department of Employment Security in assessing supply and demand.

Better Counseling

By providing better counseling and information to students who elect education beyond high school, the Board is seeking to open wider the broad range of opportunities available in Utah. The professional careers and majors long emphasized at the state universities are now receiving vigorous support from pre-professional, vocational and technical programs in other colleges and from the state's area vocational centers.

The following tables contain some of the job availability information obtained from the Utah Department of Employment Security and other sources. They broadly describe the Utah employment outlook.

Tables

- TABLE 1 Occupational Requirements of Employees on Nonagricultural Payrolls, 1970 Through 1980, p. 143
- TABLE 2 Number end Percent of Employees on Nonagricultural Payrolls in Utah, 1969, 1967, and 1975 (Projected), p. 144

V. Institutional Profiles

UNIVERSITY OF UTAH (1850) Salt Lake City

President: Alfred C. Emery

Administrative Offices: John R. Park Building

Salt Lake City, Utah 84112

Chartered as University of Descret by provisional government of State of Descret, first instruction 1850. First baccalaureate 1884. Rechartered under the present name in 1892.

The University of Utah offers graduate and undergraduate degree programs in a Graduate School (4,000 students)* and 14 separate professional colleges with a total of 17,595 undergraduate students. \$35 million in 1971–72 in contract research grants (28th in the nation).

* Figures are generally head-count.

Calendar

Quarter system. Regular session late September to early June. Freshmen admitted September, January, March and June. Degrees conferred in June. Eight weeks summer quarter, late June to mid-August.

Admission

Freshmen applications should be submitted after 6th semester of high school. ACT is required for all entering freshmen. Other applications should be submitted at least 30 days prior to registration date.

Fees

Resident: Full-time tuition \$480 per academic year. Nonresident: \$1,155 per academic year. For Colleges of Law and Medicine see current General Catalog. On-campus room and board range from approximately \$1,023 for double room to \$1,165 for single room, per nine-month school year.

Student Financial

Some 3,800 scholarships and grants of various kinds are awarded to undergraduates. The University participates in National Defense Student Loans, Educational Opportunity Grants and College Work Study programs. All applications must be received by February 1 to be considered for the following autumn quarter. Maximum freshmen aid is \$2,000, with the average being \$490. A Parents Confidential Statement is required from parents of a student dependent.

Special Academic Programs Early admission program for a selected number of high school juniors; honors program with interdepartmental courses for lower division students and seminars for upper division, senior thesis or project, summer language institutes; an overseas university center at Christian-Albrecht University, Kiel, Germany, with a six-week or semester course in German and other languages. Summer program for lan-

guage majors is offered at Centre Universitaire D'Eté Des Pyrenes at De Paul, France.

Degree Requirements For all-bachelor's degrees: minimum 183 quarter units, 45-50 general education; 2.0 average on 4.0 scale, minimum residence final 45 units (except three years in pharmacy). For B.A. and B.Mus.: 25 units, or equivalent, in a foreign language. For B.F.A.: 15 in a foreign language.

Student Life University residence halls house 1,298 single students; married student housing has 941 apartments (one to three bedrooms), and the Medical Towers have 151 apartments for interns and other medically related students. All housing areas have adequate parking facilities for the occupants. The fraternity and sorority system provides accommodations for members of their respective houses. Each house ranges in capacity from 20–25 spaces. There are 12 fraternities and 10 sororities presently active.

R.O.T.C. Air Force optional for two years; Army, Navy, optional for two or four years.

Colleges Schools and Divisions Business, Engineering, Fine Arts, Health, Humanities, Law, Medicine, Mines and Mineral Industries, Nursing, Pharmacy, Social and Behavioral Science, Science; Graduate School; Division of Continuing Education, Summer School, Graduate School of Education, Graduate School of Social Work. Museums of Natural History, Fine Arts and Naval History.

UTAH STATE UNIVERSITY (1888) Logan

President: Glen L. Taggart

Administrative Offices: Old Main, Logan, Utah 84321

Chartered as Agricultural College of Utah 1888; first instruction 1890; first baccalaureate 1894. Name changed to Utah State Agricultural College in 1929, to present official name, Utah State University of Agriculture and Applied Science, 1957.

Defined Role Utah State University is Utah's land-grant university under state legislation, Congressional enactments of 1862, 1867 and subsequent years. Renamed by state legislative enactment in 1957, Utah State University is one of two major universities serving the State System of Higher Education. It includes a Division of Extension and Continuing Education and the Utah Agrictultural Experiment Station

Utah's Colleges and Universities 50 Mile Radius of a Higher Education Facility 4 Year College University Junior College Bridgerland Vocational Center EC Technical College Utah State University **Education Center** Weber State College Utah Technical College at Salt Lake University of Utah Utah Technica Collect Southern Utah State College

under supporting federal legislation, colleges of Agriculture, Business, Education, Engineering, Family Life, Humanities-Arts-Social Sciences, Natural Resources, and Science, a School of Graduate Studies, a Summer School, a Division of International Studies and Programs. Programs of undergraduate, master's and doctoral instruction and research in these colleges as authorized receive emphasis, together with programs related to agriculture, land, water, forestry, food sciences, the development and maintenance of natural resources. Utah State University is a primary center of university research, of graduate and professional education, in the fields authorized and assigned to it.

Calendar

Quarter system. Regular session late September to early June. Freshmen admitted beginning each quarter. Degrees conferred in June. Summer session: two 5-week terms, mid-June to mid-August.

Admission

Applications should be submitted at least 6 weeks before registration.

Fee

Resident: Full-time tuition and fees \$146 per quarter. Nonresident: Full-time tuition and fees \$316 per quarter. On-campus room and board \$855 per school year. Books and supplies about \$150. Married housing available.

Student Financial

Varied scholarships, along with the National Defense Student Loan, Educational Opportunity Grant and Student Work Study programs are offered. Maximum freshman aid is \$2,000. Deadline for scholarship applications, April 15 and all other aid, July 1. The Parents Confidential Statement form is required.

Special Academic Programs International programs include annual convocation, periodic seminars and institutes of Center for Study and Causes of War and Conditions of Peace. An East-West Institute sponsors lecture series. Inter-American Center for Development of Water and Land Resources is operated for Organization of American States in cooperation with University of the Andes; Center, established 1965 in Merida, Venezuela, trains Latin American leaders in water and land resources development.

Degree Requirements For all bachelor's degrees, minimum 186 quarter units; 55 units in approved general education courses including 9 units of communication skills classes with option to propose one's own unique program with no specific course restrictions; 60 upper division units; 30–50 units in major, 18 in minor; 2.0 average on 4.0 scale; minimum residence 45 units including 15 of last 60. (See catalog for specific degree requirements.)

Student

Residence halls house 24% of undergraduate men and 41% of undergraduate women. Apartments for married students. Some 11% of both men and women join 8 fraternities and 6 sororities; 37% of fraternity members and 42% of sorority members live in organizational housing. Cars permitted. University sponsors lyceum and concert series, drama, and music programs. Logan (population 22,000) is 81 miles north of Salt Lake City.

R.O.T.C. Army, Air Force; optional for 2 or 4 years.

WEBER STATE-COLLEGE (1889)-Ogden-

President: Joseph L. Bishop*

Administrative Offices: Ogden, Utah 84403

Established as Weber Stake Academy by the Church of Jesus Christ of Latter-day Saints 1889, first instruction at college level 1916; became junior college 1933; 4-year college 1963; first baccalaureate 1964. Name changed to Weber Academy 1908, Weber Normal College 1918, Weber College 1923, present name 1963.

Defined Role

Calendar

Quarter system. Regular session late September to early June. Freshmen admitted beginning each quarter. Degrees conferred in June. Summer quarter of 8 weeks, mid-June to mid-August.

Admission

Applications should be submitted after 7th high school semester, at least 30 days before registration.

^{*} President William P. Miller relinquished the presidency June 30, 1972.

Resident: Full-time tuition \$135 each quarter. Nonresident: \$270 per quarter.

Student Financial Aid A variety of scholarships, National Defense Student Loan, Educational Opportunity Grant and Student Work Study programs are offered with about 15% of freshmen and 18% of all students receiving aid. Maximum freshmen and 18% of all students receiving aid. Maximum freshman aid is \$2,000. Deadline for scholarship application is February 1. Deadline for other financial aid application is August 1. The Parents Confidential Statement is required.

Collections

College collections include vertebrate animals from intermountain region, preserved amphibians and reptiles, study skins of birds and mammals, and synoptic survey of insects. College herbarium houses plants of Weber County, flora of Utah and adjacent states, some 500 sheets of South Pacific plants and plants from eastern U.S.; geological collections of minerals, ores, rocks and fossils of over 150 species.

Degree Requirements -For all degrees: 183 quarter units; 40 units general education; 60 upper division units; 40-60 units in major, 20 in minor; 2.0 average on 4.0 scale minimum residence 45 units including 1 quarter of senior year. For teacher education: 2.25 average.

Student Life College's residence halls house 2% of undergraduate men and 4% of undergraduate women. Single freshman men and single freshmen and sophomore women under 21 must live on campus or with their families. Apartments available for married students. Some 8% of men and 9% of women join 7 fraternities and 5 sororities. Cars permitted. College sponsors artist-lecture series, art shows, drama, operas and music programs. Ogden (pop. 90,000) is 35 miles north of Salt Lake City.

R.O.T.C. Army optional for 2 or 4 years.

SOUTHERN UTAH STATE COLLEGE (1897) Cedar City

President: Royden C. Braithwaite

Administrative Offices: Cedar City, Utah 84720

Established as Branch Normal School of University of Utah and first instruction 1897; transferred to Utah State Agricultural College and name changed to Branch Agricultural College of Utah 1913; first baccalaureate awarded 1950; name changed to College of Southern

Utah 1953; became independent institution 1965; present name adopted 1969.

Defined Role Southern Utah State College provides an educational opportunity within the Utah System of Higher Education for those whose needs are best served in a small- to medium-size four-year college with its residential life and sense of community. The College is authorized to offer courses leading to the baccalaureate degree in the arts and sciences, in teacher education, business and technology. The College offers approved pre-professional programs, certified programs in vocational and technical subjects, and agricultural subjects approved by the Board. Opportunities exist in continuing education, also in community service and development commensurate with its approved curriculum and resources.

Calendar

Quarter system. Regular session late September to early June. Freshmen admitted September, January, March. Degrees conferred in June. Summer session: two 4 week terms, early June to early August.

Admission

\$10 application fee. Applications should be submitted at least 6 weeks before registration.

Feet

Resident: Full-time tuition and fees, \$128 per quarter. Nonresident: \$263 per quarter. On campus room and board per year \$762 (\$25 application).

Student Financial

All scholarship applications must be received prior to March 1 to be considered for awards the next autumn quarter. The college participates in the National Defense Loans, Educational Opportunity Grant and the College Work Study programs. Applications for these programs should be submitted by July 1. 35% of freshmen and 46% of all undergraduates received some aid in 1969-70. Maximum freshman aid is \$1,650, an average of \$650. The Parents Confidential Statement form is required.

Degree Requirements For all degrees: 183 quarter units; 56 units general education; 40-65 units in major, 20-30 in minor. See catalog for other details.

Student Life

34% of students live in residence halls. There are campus apartments for married couples. About 8% of men join 3 fraternities housing 75% of members. Cars permitted. College sponsors Annual Utah Shakespearean Festival. Drama club and art shows are jointly sponsored by community and school. Cedar City (pop. 9,000) sponsors programs by Ballet West and Utah Symphony. College is 265 miles south of Salt Lake City.

SNOW COLLEGE (1888) Ephraim

President: Floyd S. Holm

Administrative Offices: Ephraim, Utah 84627

Established as Sanpete Stake Academy by the Church of Jesus Christ of Latter-day Saints. Name changed to Snow Academy 1900. Junior college instruction first offered 1923. In 1933, came under control of State Department of Public Instruction. Became branch of Utah State University of Agriculture and Applied Science, 1951. Became part of Utah State System of Higher Education under control of Utah State Board of Higher Education, 1969.

Defined

Snow College affords opportunities for students at a two-year, combined residential and day-student college. With Dixie College and the College of Eastern Utah, the system's two-year colleges are designed to provide pre-matriculation, general, vocational, as well as transfer options. Snow provides unusual opportunities for students who are especially interested in residential experience in a two-year college. The system's two-year colleges are intended to serve as viable, productive, two-year colleges, providing general educational opportunities and transfer options to the four-year colleges and universities.

Calendar

Quarter system. Regular session late September to early June. Freshmen may enter any quarter. Associate degrees conferred in June.

Admission

Open door. No application fee required. Applications received up to the day of registration. American College Test and physical examination required.

Fees

Resident: Full-time tuition and fees \$115 per quarter. Nonresident: Full-time tuition and fees \$235 per quarter. Minimum oncampus room and board \$207 per quarter. On-campus housing only, \$72-\$90 per quarter. Married student housing available.

Student Financial Aid Some 34% of Freshmen and 45% of all students received aid in 1970-71. The maximum freshman aid is \$1,600 with the average being \$485. Deadline for application is 6 weeks prior to date needed. National Defense Student Loans, Educational Opportunity Grants, College Work-Study Programs require the Parents Confidential Statement. Scholarships and activity Grants-in-Aid also available with applications required by March 1st.

Degree Requirements 96 quarter hours, 1.7 average on 4.0 scale required. Prescribed courses: Associate in Science — biological sciences, English, humanities, physical education, physical sciences, social sciences; for Associate in Arts — Foreign language also required; for Associate in Applied Science — strong concentrations in specific vocational-technical areas with modifications of the "general education" requirements of the above listed degrees. The Certificate of Completion in technical areas also available and may be awarded at any time in academic year that prescribed course is completed.

Divisions

Natural Sciences; Social Sciences; Humanities and Arts; Industrial and Occupational Education.

Student

On-campus housing available. Yearbook, bi-weekly newspaper, annual literary magazine. Major student activities and organization: Associated Students, Associated Men Students, Associated Women Students, class organizations. Social and special interest clubs. All major sports. Automobiles permitted.

DIXIE COLLEGE (1911) St. George

President: Ferron C. Losee

Administrative Offices: St. George, Utah 84770

Established 1911 as 4-year high school by the Church of Jesus Christ of Latter-day Saints; junic college instruction added in 1916. The state assumed control in 1933. In 1963, the college separated from the high school and moved to its present campus.

Kole

Dixie College subscribes to the two-year comprehensive community college concept including terminal-occupational programs below the bachelor level, academic-transfer programs to prepare the student for work at the bachelor level, and continuing education programs geared to meet the needs of part-time students and those seeking to retrain or add to their educational skills.

Calendar

Quarter system. Regular session late September to early June. Freshmen register September, January, and March. Degrees conferred in June. Summersession.

Admission

Open door admission policy. No application fee required. Applications accepted up to the day of registration.

Fees Resident: Full-time tuition and fees \$365 per school year. Non-

resident: Full-time tuition and fees \$725 per school year. On campus room and board \$780. Married student housing available.

Student Life Students not living with parents or guardians must live on campus or in college approved housing. Campus located 315 miles south of Salt Lake City in a city of approximately 8,000. Yearbook, weekly newspaper, literary magazine. Major student activities and organizations: National, State, and local fraternities and clubs on campus. Major sports: football, basketball, baseball, tennis, rodeo, track. Automobiles allowed on campus.

COLLEGE OF EASTERN UTAH (1937) Price

President: Dean M. McDonald

Administrative Offices: Price, Utah 84501

Established by the legislature in 1937 as Carbon College, a 4-vear junior college-high school controlled by the state board of education and Carbon County School District cooperating. Abolished by an act of the legislature in 1953 but saved by referendum. Became a branch of the University of Utah in 1969, dropping high school

program. Name changed from Carbon College to the present in 1965.

Defined Role

The College of Eastern Utah provides educational opportunity c. general and flexible nature, with pre-matriculation, vocational, transfer, and general completion opportunities. Situated in a city affording special cultural advantages, populated with people of high ethical and educational standards, CEU affords outstanding opportunities as a well-integented, two-year college.

Calendar

Quarter system. Regular session late September to early June. Freshmen may enter September, January, and March. Degrees conferred in June. Summer session: eight week session, mid-June to mid-August.

Admission

Open door admission policy. No application fee required. Applications received up to the day of registration.

Fees

Resident: Full-time tuition and fees \$327 per school year. Non-resident: Full-time tuition and fees \$687 per school year. On campus room and loard \$750 per school year. Married housing available.

Student Financial

Scholarships along with the National Defense Student Loan, Educational Opportunity Grant and Student Work Study Programs are offered. Maximum freshmen aid is \$1,527 with the average being \$550. 40% freshmen and 50% of all undergraduates receive aid. Deadline for scholarship application is March 1, for all other aid it is April 1. Late date for financial aid applications is August 1. The Parents Confidential Statement is required for all student aid.

Degree Requirements

For an associate degree, 93 quarter hours, 2.0 average required. Prescribed courses: biological science 9 hours, English 6, humanities 9, orientation, personal hygiene 1, physical education 3, physical science 9, speech 3.

Divisions

Business, Education and Social Sciences, Humanities, Natural Science, Trade and Technical.

Student Life

Some on-campus housing available. Campus is located in Price, a city of approximately 7,000, 120 miles from Salt Lake City. Year-book, biweekly newspaper, annual literary magazine. Major student activities and organizations: student government service and religious groups, speech and dramatics, fraternities, music. Major sports: basketball, baseball, track. Automobiles allowed on campus.

-UTAH TECHNICAL COLLEGE AT PROVO (1941) Provo

President: Wilson W. Sorensen

Administrative Offices: Provo, Utah 84601

Four school districts in the Utah County area worked together to establish the institution as Central Utah Vocational School in 1941. Made a state institution in 1947. Authorization 1967 to award the Associate in Applied Science Degree. Full accreditation by the Northwest Association of Secondary and Higher Schools in 1969.

Defined Role

The two Utah technical colleges emphasize vocational, technical, and paraprofessional subjects. These are combined with authorized programs in general education, including the two-year Associate Applied Science degree. With short-courses, evening courses — credit and non-credit — the Utah Technical College at Provo provides significant educational training and employment opportunities. Transfer possibilities, especially to Weber State College with its four-year School of Technology, are open to graduates of the Technical Colleges. Through individual advisement, transfer possibilities elsewhere in the System may be arranged. The Technical College offers the vital technical training required for the conditions of modern life, combined with essential liberal and general education. Under the Higher Education Act of 1969, these institutions have taken their place as significant elements of the Utah System of Higher Education.

Calendar

Quarter system. Regular session early September to late May. Freshmen may enter in September. Degrees conferred in May and August.

Admission

Open door admission policy. Application fee of \$5 required.

Fees

Resident: Full-time tuition and fees \$309 per school year. Non-resident: Full-time tuition and fees \$936 per school year. No campus housing available. (Community housing available.)

Student Financiai

Scholarship deadline is March 1. Scholarships and tuition waivers available. National Defense Student Loans, Economic Opportunity Grants, and Work-Study Programs require the Parents Confidential Statement.

Degree Requirements

96 quarter hours, 2.0 average on 4.0 scale required. Prescribed courses: at least 24 hours selected from each of the following divisions: Humanities, Social Science, Biological and Physical Sciences, and Electives. Certificates of completion available.

Division

Auto Body, Auto Mechanics, Building Construction, Business, Continuing Education, Office Education, Dental Assisting, Diesel Mechanics, Drafting and Design Technology, Electrical and Automation Technology, Electronics, General Education, Instrument Repair, Machine Shop, Marketing Management, Practical Nursing, Professional Driving, Refrigeration and Air Conditioning, and Welding.

Student Life College has a monthly newspaper. Activities include clubs, Associated Students, Associated Men Students, Associated Women Students and Class Organizations, Intercollegiate and Intramural Sports and Physical Education programs. Major sports: baseball and basketball. Automobiles are allowed on campus. LDS Institute of Religion and other religious facilities convenient to campus.

UTAH TECHNICAL COLLEGE AT SALT LAKE (1947)

President: Jay L. Nelson

Administrative Offices: 4600 South Redwood Road Salt Lake City, Utah 84107

Established in 1947 by the Utah Legislature as Salt Lake Area Vocational School. Name changed to Salt Lake Trade Technical Institute in 1959. The present name originated in 1967.

Defined

The two Utah technical colleges emphasize vocational, technical, and paraprofessional subjects. These are combined with authorized programs in general education, including the two-year Associate of Applied Science diploma. With short-courses, evening courses—credit and non-credit—the Utah Technical Colleges provide significant educational training and employment opportunities. Transfer possibilities, especially to Weber State College with its four-year School of Technology, are open to graduates of the Technical Colleges. Through individual advisement, transfer possibilities elsewhere in the System may be arranged. The Technical Colleges offer the vital technical training required for the conditions of modern life, combined with essential liberal and general education. Under the Higher Education Act of 1969, these institutions have taken their place as significant elements of the Utah System of Higher Education.

Calendar

Quarter system. Regular session, late September to early June. Freshmen may enter most courses any quarter. Summer session is

held from mid-June to late-August. Degrees conferred in June and August.

Admission Open door policy. \$5 application fee required. Applications should be received 30 days prior to enrollment.

Resident: Full-time tuition and fees \$300 per school year. Non-resident: Full-time tuition and fees \$900 per school year. No campus housing available.

Scholarships, along with National Defense Student Loan, Educational Opportunity Grant and Student Work Study Programs are offered. Maximum freshman aid is \$2,000. Deadline for scholarship applications is April 1. The Parents Confidential Statement is required for all student aid.

Divisions Automotive, Metals, Business, Graphics, Health Occupations, Electronics, Related Instruction.

Degree RequireAssociate of Applied Science: 96 quarter hours. 1.9 average required. Prescribed courses: Social science 6 hours, physical science 6 hours, humanities 6 hours, plus composite of above 6 hours. Certificate of Completion available.

Student Life Yearbook, monthly newspaper. Major student activities and organizations: Associated Students, class organizations, variety of service and special organizations. Intramural sports only. Automobiles allowed on campus.
